Dear Honorees,

It is with deep respect that Advocates, Counselors & Representatives for the Disabled (ACRD) recognizes your firm among this year's distinguished award recipients. This distinction represents far more than an acknowledgment of professional success, it is a tribute to your firm's enduring leadership, principled advocacy, and unwavering dedication to the individuals and families whose lives are changed through your work.

The ACRD Awards were established to honor firms whose excellence elevates the standards of our profession and advances the cause of justice for people with disabilities nationwide. Each year, a select group of organizations are chosen not only for their measurable impact, but for the spirit in which they serve: with integrity, innovation, and humanity. To be named among this distinguished group is a mark of both achievement and trust, earned through consistency, compassion, and measurable excellence.

Your firm's inclusion among the Top 500 signifies not only success but significance: a recognition that your work strengthens the foundation of this field and advances access to justice for those who depend on it most. This honor is a reflection of your team's collective commitment to service, professionalism, and purpose, a commitment that uplifts the entire community.

This year's recognition also arrives at a time of renewed collaboration across our field. Through the newly established National Hearing Network (NHN), ACRD is connecting leading firms to strengthen regional and national consistency in hearing coverage. Many of the Top 500 honorees are already contributing to this shared effort, advancing a more unified, reliable system of representation for clients nationwide.

Enclosed you will find your award. We look forward to celebrating your firm's achievements in Orlando and recognizing the leadership that continues to elevate our national community.

On behalf of the ACRD Leadership team, Board of Directors, and our membership across the country, please accept our heartfelt congratulations. Your firm's work reflects the highest ideals of excellence, service, and integrity, and serves as a lasting example of the profound difference made when expertise and empathy unite in pursuit of justice.

With warmest regards,

Rachel Buck
